# Health & Hospital Law: MCLE BasicsPlus!®

*Fundamentals of health care law in the post-health reform era*

Health Law is both relatively recent in origins and also extremely dynamic. Regulators, plans, and providers have been evaluating changes to the health care delivery system—all while business, patient care, regulation, and oversight continue. Health lawyers need both a broad understanding of the industry, and recent developments, to be effective for clients. Get an introduction to Massachusetts and Federal health care law—including the core issues and latest developments. Learn the acronyms, players, general concepts, and important laws and policies. Sessions are valuable to experienced health care attorneys seeking an update and to lawyers new to health law practice. Lawyers representing health care providers, insurers and health plans, patients, governmental agencies, and employers purchasing health coverage for employees all benefit from attending.

## Mandatory CLE credits

States have varying mandatory CLE credit requirements; individual attorneys are responsible for checking with their particular state CLE accreditation authority about whether and how much credit will be granted. Although MCLE does not pursue state-based credit, MCLE programs are regularly approved in many jurisdictions. It is the responsibility of the individual attorney interested in CLE credit to submit the information and certifications required under the respective state rule to the appropriate state authorities in the jurisdictions in which they seek credit.

Depending on the jurisdiction, lawyers can satisfy their mandatory CLE requirements online with MCLE's webcasts, which feature periodic attendance prompts, online written materials, and the opportunity to receive a certificate of attendance.
